

FAR-REACHING ACCESS PLATFORMS

IDEAL FOR
STREETLIGHTING AND SIGNAGE.

Extend further
with our moment
sensitive outreach.

YOUR BENEFITS

- **Fuel and CO2 saving**
E-Drive – our unique, self-charging hybrid system, allows the engine to be off whilst operating your platform; you save on fuel and engine service costs.
- **Easy operation**
Reverse articulated boom configuration and electro-hydraulic controls in the basket.
- **Lower carbon footprint**
Designed and manufactured in Hull and our components are sourced from British suppliers.
- **Greater payload in the vehicle**
Our lightweight platform design means you have more payload for your tools and lamps/signs.
- **Extra safety feature for your operator**
Insulating harness anchors in the 2-man GRP composite basket
- **Easy maintenance**
We use stainless pins and maintenance-free bushes, and our slew ring is inside the van for easy access.

WHY ALDERCOTE?

Designed for easy operation and low maintenance, our optimised designs use high quality materials making them lighter than other brands, without compromising on strength or safety. The extra payload makes our platforms ideal for streetlighting and signage work, as you'll be able to carry all the tools and equipment you need.

ENTERPRISING SOLUTIONS

We design and manufacture everything inhouse, so our experienced team has an in-depth knowledge in all areas. Our team can therefore help to help tailor a platform to your specific requirements. This might include an aluminium basket for easier access, or restricted operation without stabilisers for quicker access for easy tasks, among many other options to improve safety and productivity.

“Purchasing our access platform with Aldercote was an extremely smooth process from initial enquiry to final handover, all in a relatively short timescale.”

Mark Roe
Managing Director,
Lighting & Signs Limited

NOTE: This table is not a comprehensive list but reflects examples of common models chosen by customers in these industries.

							
V125		12.5m	7.2m–7.6m	200kg	No	3.2t–7.2t	Ford Transit Iveco Daily MAN TGE Mercedes Sprinter Renault Master VW Crafter
VZ135		13.7m	6.7m–8.9m	220kg–250kg	Yes		
VZ140		14.3m	6.7m–9.1m				
VZ145		14.8m	6.7m–9.1m				
VZ160		16.0m	7.4m–10.8m	200kg	Yes	5.2t–7.2t	Iveco 50c MAN TGE Mercedes Sprinter VW Crafter
VZX180		18.3m	7.7m–11.0m				
CZ140		14.1m	6.8m	250kg	Yes	from 3.08t	Toyota Hilux Ford Ranger Isuzu D-Max

Note: Working height may vary by up to 0.3m depending on vehicle floor height.

OUR CUSTOMER'S CHOICE

Robustness and simplicity – V125

This simple articulating design, with electro-hydraulic controls, and our proven electric safety interlock system, ensures downtime will be rare.

The popular choices – VZ135 & VZ140

Mounted onto 3.5t vans for standard licence holders, or 5t for serious load carrying, these platforms comfortably meet most working at height requirements.

Extending further – VZX180

Setting the benchmark by reaching higher and further than any other van-mount in the market today, the VZX180 has the same versatility and ease of operation as all our VZ models.

For extreme locations – CZ140

Mounted to pickups for working off road, the CZ140 offers stability and class-leading reach in the most challenging locations.

Made in Britain

We are the leading UK manufacturer of vehicle-mounted access platforms. We are proud to design and manufacture high performance products that help our customers build and maintain the nation's infrastructure.

Aldercote is a family run business that puts people first. We show this in our customer care and by valuing every employee for their passion, expertise and individuality.
